DATE 2006

1. EGLA-2274 of 6 February 1953 requested traces on FLEGEL from EE, COM, CLS and BOB. The last three addresses had no traces. EE traces were sent in EGQW-5873, with attachment, dated 31 March 1953. Our files indicate that all subsequent information on FLEGEL should be available at POB. We could find no data here on his wife. Please advise us if EGQW-5873 was not received at POB. If EGQW-5873 is available at POB, is there any special reason for re-tracing FLEGEL at this time?

2. EGLA-2274 and BONN 0742 of 1 May 1953 (to FULL) both state that FLEGEL resides in Burg/Fehmarn, whereas the attachment to EGQW-5873 (dated 1947) states that he resides in Steyerberg. Please advise us if the Steyerberg address, as given in EGLA-5389, is based on information received by POB after May 1953.

3. Has POB been able to obtain any further details on the incident described in paragraph 1b of BONN 0742, and is any further identifying data on ORBAN available? We would also appreciate learning if FLEGEL himself actually attended the training course described in paragraph one of EGLA-1950 or if he merely obtained this report from one of his sources.
